

ADULT GLOVES

Glove fit is open to personal preference but make sure the fit is loose enough to avoid arm pump but snug enough to minimize bunching up in the paim.

ADULT JERSEY

MSR Jerseys correspond with the size of your standard T-shirt. Just choose the same size jersey that you normally wear in a Tshirt. Note that a correctly fitting Jersey will fit much looser than a T shirt to allow freedom of movement while riding.

ADULT PANTS

The walst size of our pants correspond with the fit of most leans so your MSR pant should be the same size as your leans. Our pants can also be securely adjusted up to the next even size by using the dual side adjusters and or center ratchet buckle.

YOUTH GLOVES

With palm up, take a measurement from the wrist joint to the tip of the middle finger (X). Compare finding with the chart below.

	(X)	
(X) MEASURE	GLOVE SIZE	
5.625"(14cm)	Y-XS	
5.875"(15cm)	Y-SM	
6.125"(15.4cm)	Y-MD	
6.375"(16cm)	Y-LG	

Y-XL

6.675"(17cm)

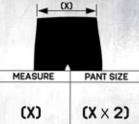

YOUTH JERSEY

Compare the size of a standard Youth T-shirt with the corresponding Jersey size from the chart. The tee shirt size corresponds with an oversized lersey size for a comfortable rider fit.

T-SHIRT SIZE	JERSEY SIZE	
SM (6-8)	Y-SM	
MD (10-12)	Y-MD	
LG (14-16)	Y-LG	
XL (18-20)	Y-XL	

YOUTH PANTS

Using a pair of your child's requiar pants (leans. shorts, etc.), button them and pull them tight across the top as in the diagram. Measure the distance across at the waistline. Multiply the measurement by 2 to find the waist size

Visor lock screw

Adjustable visor

High-density EPS liner

Moisture wicking, removable and washable liner and cheek pads

Synthetic and metal mesh air filter

Dome ridges for increased structural integrity

Low-density EPS liner

High-volume air ducts divert the warm air to the exhaust ports on the outside

High-gloss and UV resistant clear coating

SNELL & DOT approved

INSTALLING A HELMET AND RETENTION SYSTEM

The best way to put on the helmet is to hold the chin straps on each sides and pull it over your head. Pass end of strap through the D-rings and pull it comfortably tight back against the lower jaw. Keeping head straight, rotate the helmet from side to side. If the helmet is adjusted properly, you should feel the movement of your scalp be closely equivalent to the helmet's movement. With your hands on the sides of the helmet, lift the helmet slightly with an up and down motion. Once again, the movement of your skin should approximate the helmet movement. To remove the helmet, pull the d-ring tab outward to release strap tension. Then un-thread the chin strap. Pull the chin straps outward, rotate the helmet forward, and lift it off.

PROPER HELMET CARE

- Hand wash liner in cold water, 20°c/68°f,
- Do not bleach, drip dry (do not machine dry) Wipe shell clean with damp cloth and mild soap

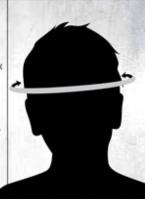

ADULT MEASUREMENTS

MEASURE YOUR HEAD

Using a tape, measure the circumference of your head just above the ears and across the forehead and then refer to the size chart above & below Check the fit by moving the chin bar up and down. The helmet should fit snug enough to move the scalp up and down rather than the liner just slipping on the hair. Also be sure to pull up on the back of the helmet to make sure that the helmet cannot possibly be pulled off of your head.
